## SHOPMEN ON 60 ROADS BACK TO WORK SOON

### RAILWAYS THROUGHOUT COUNTRY SIGN SEPARATE AGREEMENTS WITH MEN

Practically All of the Strikers Will be at Work Within a Few Days, as Greatly Enlarged Forces are Necessary to Handle Increasing Business

Men Return to Work at the Wage Scale Fixed by the United States Railroad Labor Board; Question of Seniority Not Mentioned in Agreement

By United Press

#### Course of Northern Pacific Not Known

St. Paul, Sept. 14.—Just what the Great Northern and Northern Pacific lines will do as a result of the individual settlement of sixty railroads with the strikers was unknown today.

The Great Northern has already launched a company union, the first organization having been completed at St. Cloud. In recent statements President Ralph Budd of the Great Northern said that the road would never again sign with national unions, and would make its own agreements with its own workers who were forming their own unions.

Chicago, Sept. 14.—Shopmen on more than sixty roads prepared to return to work today.

Railroads throughout the country signed separate agreements voted by the striking employees.

Similar agreements will be offered to every railroad, and it is expected that within a week a majority of the roads will accept the peace proposal.

Peace terms on the sixty roads affected by the Jewell compromise will be signed within three days.

#### Chicago & Northwestern Signed

The Chicago & Northwestern signed today, and the shopmen returned to work immediately.

Practically all of the strikers will be at work within a few days, as the railroads who accept the agreement will employ greatly enlarged forces to get their equipment back in shape. The men return to work on the wage scale fixed by the United States railroad labor board. The question of seniority was not mentioned in the agreement.

#### 55,000 Mileage Affected

Railroads of more than 55,000 mileage are affected by the settlement. The total railroad mileage in the United States is approximately 250,000.

#### New York Central Included

The vast New York Central system is included in the agreement. The settlement includes 30 per cent of the railroads of the country.

A committee of 12—six from the railroads and six from the employees will work out all disputes arising from the agreement.

The strike went into effect June 30. Four hundred thousand men walked out. Practically every resource was used to effect a settlement. All efforts failed until a mysterious trip east of Bert M. Jewell, president of the shopcrafts.

"I will sign today and expect my men to get back to work immediately," W. H. Finley, president of the Chicago & Northwestern declared.

Other railroads will sign as soon as the agreement can be rushed to them. The agreement will be signed individually.

All of the strikers on the roads affected will be put back to work within 30 days. Men now employed will be retained if they desire.

Union leaders declared they had the "whip hand" over the railroads not included in the agreement.

#### Railroads in Agreement

Among the railroads in the northwest that are affected by the settlement, are the Chicago, Milwaukee & St. Paul, the Chicago & Northwestern, the Pierre, Rapid City & Northwestern, the Chicago, St. Paul Minneapolis & Omaha, the Pierre & Ft. Pierre, the Wyoming & Ft. Pierre, and the Minneapolis & St. Louis.

#### Dispute Over Injunction Continues

Chicago, Sept. 14.—Despite the partial settlement of the rail strike fight, the dispute over the Daugherty injunction continued in federal court here today.

Scores of affidavits from all parts of the country were read into the records as evidence that terrorism during the strike was a result of a binding compromise.

Attorneys for the strikers left the court today to prepare their defense. It is believed the government will finish its case this week. Union attorneys indicated they would attempt to offset the government case by charging the strike was only a step in a well organized plan to break unionism.

#### Jewell Announces Terms

B. M. Jewell, head of the striking railway shop crafts, announced that the unions' policy committee of 90

had authorized him to negotiate individual peace agreements with the railroads of the country based on the terms of a general settlement plan adopted by the policy committee.

Mr. Jewell said:

"We have agreed to the terms of a settlement yielding wherever possible and standing where there was no other avenue open honorably to those we represent."

#### Men to Return

All men are to return to work in positions of the class originally held on June 30, 1922, at the same point, according to the statement issued by the policy committee.

"The method of procedure adopted by the policy committee at the meeting is that no men on any railroad, even tho included in the settlement at this time, are to return to work until they have received the necessary directions from their respective system federations," the policy committee statement said, and

### TWO OF BIG FOUR BROTHERHOODS AND 13 CARRIERS RENEW PRESENT WAGE SCALE

(By United Press.)  
New York, Sept. 14.—Agreement between two of the powerful big four railroad brotherhoods and 13 carriers for renewal of present wage contracts will be reached this afternoon, according to W. G. Lee, president of the Brotherhood of Railway Trainmen.

Lee and L. E. Sheppard, president of the Order of Railway Conductors, together with the chairmen and secretaries of the general committee, met

with leading executives in a closed session here.

The meeting was called by H. A. Smith, president of the New York Central.

The new agreement which would not only continue the present wages of conductors, brakemen, baggage men, flagmen, yard men, foremen, helpers, switch tenders but would also continue in force all rules governing working conditions, is expected to be signed late today, Lee said.

### PLAN TO PREVENT RECURRENCE COAL AND RAIL STRIKES

PRESIDENT HARDING DETERMINED COUNTRY SHALL NOT BE CRIPPLED AGAIN

SECRETARY OF COMMERCE HOOVER HAS TENTATIVE PLAN TO BROACH TO CABINET

(By United Press.)  
Washington, Sept. 14.—Plans to prevent a recurrence of the disastrous coal and railroad strikes are being formulated by the government. President Harding is determined that the country shall not again suffer from the crippling influences of great public utility strikes, and has asked Secretary of Commerce Hoover, Secretary of Labor Davis, and Attorney General Daugherty to evolve measures for adjustment of labor disputes.

Hoover already has a tentative plan. It centers around almost compulsory arbitration. Davis is working out a scheme of his own.

Daugherty will develop legal phases of the composite plans that will finally be selected by the President.

### BERLIN PLANS REFUSAL TO PAY BELGIUM GOLD

Berlin, Sept. 14.—The German government plans to refuse the Belgian demand that 100,000,000 marks in gold be deposited in Belgium as a guaranty that August and September reparations payments will be met, it was semi-officially stated today.

### \$200,000 LOAN TO MINE UNION BARED

AMOUNT ADVANCED BY N. Y. BANK ON PERSONAL NOTES OF LEWIS AND TWO AIDES

New York, Sept. 14.—At a time when funds for the purchase of tents and food for the striking coal miners and their families were sorely needed, the Harriman National bank loaned, it was learned more than \$200,000 to the United Mine Workers of America to fill this need. The loan was made on the personal notes of officials of the union organized without collateral. It was obtained early in July.

"If they should come into this office again today in need of \$5,000,000 they could have it within an hour," Harry B. Rosen, director of the bank, said. "They are customers of the bank, and we have it our duty to help them."

The officials who signed the notes were John L. Lewis, president of the United Mine Workers; P. H. Murray, vice president, and William Green, secretary-treasurer.

It was learned the bank helped in peace parleys.

### ARMY DIRIGIBLE STARTS BIG FLIGHT

Washington, Sept. 14.—The army dirigible C-II left Langley field Virginia early today on the first transcontinental flight of its kind ever attempted, arrived in Akron, Ohio, before noon, the war department was advised today.

A telegram from Major Strauss, commanding the C-II said the blimp would leave this afternoon for Scott Field, Belleville, Illinois.

### EUROPE, TINDER BOX, SAID TO AWAIT ONLY ITS SARAJEVO TODAY

ADVANCE OF MUSTAPHA KEMAL NEARER CONSTANTINOPLE MAY BE SIGNAL

FOR DECLARATION OF WAR BY BRITISH—NEAR EAST SITUATION SERIOUS

London, Sept. 14.—The great war with Moslem hordes backed by millions of Bolsheviks in arms against Europe, seemed to but await its Sarajevo today.

Further advance of the victorious forces of Mustapha Kemal toward Constantinople, goal of the Turkish nationalists, may be the signal for declaration of war by Great Britain.

Russia has entered the conflict with open support of the Turks. The Dardanelles, gateway of the Near East, over which nations have fought for centuries, promises to be the touch stone of a world conflict, if the Turks pursue their ambition without regard for allied ultimatum.

Within two weeks the situation in the Near East has changed from a petty war in Asia Minor to an actual raging conflict engulfing already war weary nations of Europe with the millions of Moslems.

The threat of war was admitted here today to be very near. Great Britain was almost certain today. "Troops are being rushed to block the path of Turks headed for the city."

It has been reported that the Turks have halted their advance upon Constantinople. British guns are known to be barring the way, enforcing the same measures that forced the Turks out of Europe. The intervention of Russia which threatens the freedom of the Dardanelles has added weight to the Moslem threat to retake the port.

### SENATOR ASKS SIFT OF VETERANS BUREAU

Washington, Sept. 14.—Investigation of the Veterans' bureau to determine whether laws relating to treatment and care of disabled former service men are being administered properly and promptly would be ordered by the senate under the terms of a resolution introduced by Senator W. H. King, democrat, Utah.

### SENATE INVESTIGATING COMMITTEE TO INSPECT BRAINERD MARL DEPOSITS

Too much cannot be said as to the importance of the investigations which the special committee from the state legislature investigating cement material fields, who are coming to Brainerd today, will make.

Many do not understand that because of the rich deposits of marl in Crow Wing county, Brainerd is in a position to have the state cement plant located here, when favorable action is taken by the legislature this winter.

The investigation committee is making the rounds of different prospective locations for this plant, and will arrive in Brainerd this afternoon on the 2 o'clock train from St. Paul, to personally examine our marl deposits.

This committee will be met at the train by a reception committee from the Chamber of Commerce, of which County Engineer Walter M. Murphy is chairman. Representative citizens of the county will also be at the depot to welcome the visitors, who will then be escorted directly to the marl deposits in Ideal township, where they will go over the ground carefully,

gaining first hand information to be used in deciding the location of the cement plant.

From the marl fields, the committee will be the guests at a dinner given in their honor at "Breezy Point," where an informal reception will be tendered them.

The night will be spent at Breezy Point, and on Friday the visitors will attend the Crow Wing County Fair at Pequot, where Mr. Murphy has arranged a large exhibit of marl.

The state cement plant as it is now planned, will cost between four and five million dollars and will employ about 1,200 men. It will be located at some central point where plenty of good material is available. This county has the largest and richest deposits of marl in the state. The best bed of this material extends from Star lake north into Ideal township and analyzes 98.99 per cent pure lime.

This will bring a new and important industry into Brainerd, and every citizen should use all available means to assure the location of the plant in this city.

### B.&O. PUTS EMBARGO ON NORTHWEST COAL

ROAD OFFICIALS CITE CONGESTION OF SHIPMENTS ALREADY MADE TO LAKE PORTS

Washington, Sept. 14.—There was another setback in the movement of coal to the northwest when the Baltimore & Ohio railroad placed an embargo on coal destined for that locality. The reason given was that coal now at lake ports had not been dumped, and it was useless to send more coal until the congestion was relieved.

Yesterday the New York Central agent reported there were no vessels available for carrying coal up the lake. Investigation showed that one of the big dumping machines belonging to the Central was out of commission temporarily and that a smaller one had not been put into use. An investigation is being made of the report that dumping machines at Sandusky had been tampered with.

Reports to the northwest fuel committee today showed that Saturday and Sunday 81,000 tons of bituminous coal had been shipped to Lake Superior ports compared with 25,000 tons to Lake Michigan ports.

"The trouble with the slow movement of coal to the northwest is that the railroads were not prepared to handle increased tonnage," said J. J. Murphy, North Dakota member of the governor's committee. "Some of them have apparently adopted a policy of hampering instead of helping the movement."

### WAR AGAINST RE-ELECTING 50 CONGRESSMEN

(By United Press.)  
Atlantic City, N. J., Sept. 14.—Affiliation of the American Federation of Labor with the farmer vote of the country to elect Robert M. La Follette president in 1924 was considered here today by the Federation's executive committee. War against re-election of fifty congressmen throughout the country was also discussed when James O'Connell, chairman of the non-partisan policy committee went into session with the executive committee.

The convention of the American Federation of Labor is expected to adopt resolutions favoring legislation to curb the injunction power of the government, repeal the Sherman anti-trust act, revise the child labor law, and a review of the supreme court decisions by congress.

### DIVERSE FARMING TERMED NECESSITY

ECONOMIC FACTORS OUTLINED BY F. W. PECK OF 'U' FARM SCHOOL AT LION'S LUNCHEON

Minneapolis, Sept. 14.—Diversified farming is an economic necessity for the farmers of Minnesota and for all lines of business, since farming is the backbone of our community, F. W. Peck, director of agricultural extension in the university farm school told members of the Lions club at a luncheon in the Radisson.

Mr. Peck said there were certain factors in connection with diversified farming that would result in a more profitable industry and for this reason diversification should be adopted in the state.

The factors which he named were: More efficient, better balanced, lower cost, production.

More efficient, lower cost distribution of the farmers' products. Education; more co-operation; more organization of forces which operate between farmers and consumers in general.

Development of a better community spirit with frank publicity and more widespread knowledge of the factors that effect various lines of business.

"A study of the types of farming in Minnesota with the character of each type afford an analysis of the degree of diversity that exists in various parts of the state," said Mr. Peck. "Eighty per cent of Minnesota farms maintain some cows of either the beef or dairy breed. This is one indication of diversification. The Red River valley has been getting away from the single crop of wheat farming for the last five or six years and is developing types of livestock farming in a highly satisfactory way."

"The specific crop grown is not always a correct measure of the diversity of a farm business, and a common measure or indicator of the degree of diversity is the number of sources of income that result from the system practised."

### MINE TOMB PREDICTED OPEN IN 36 HOURS

Jackson, Cal., Sept. 14.—As rescue parties resumed today their frantic efforts to reach the 47 men entombed for 14 days in the Argonaut gold mine here, it was with the prediction of officials that the barriers would be broken through within 36 hours.

Some in touch with the situation, expressed the belief that at least a few of the miners would be found alive. The general opinion is that, if any victims survived, they were only a handful of the stronger and more

## IOWA WOMAN ACCUSED OF CAMPAIGN BRIBERY

Des Moines, Sept. 14.—Charges that Miss May Francis, republican nominee for state superintendent of public instruction, resorted to bribery in her primary campaign, that she is in collusion with a large publishing house for their mutual advantage and that her conduct is unbecoming a teacher, shook Iowa political and school circles.

The charges were made by the Iowa Good Schools committee in demanding revocation of Miss Francis' license to teach.

The only evidence offered were affidavits by three persons who said they were paid workers for Miss Francis at the primary campaign and were employed to distribute her cards at the polls on election day.

Superintendent McLeahan who was

## GOOD WILL IS A BOOMERANG

For if once given—it always returns to you. This has been proven many times since we have been serving our friends.  
 You benefit by trading with us and you probably will tell your friends about it. More business for us is the result—and we continue the good work.

## O. D. LARSON

 Phone 117 We Deliver

defeated by Miss Francis said he had never heard of the good schools committee.

The accused teacher, who is the first woman ever nominated by Iowa republicans for a major state office, declared the charges were due to political malice and that they were based on an obsolete section of the Iowa code.

## CHARTER COMMISSION MEETING TONIGHT

Through a misunderstanding the Dispatch reported the meeting of the Charter Commission for Wednesday evening. It should have read Thursday evening, as the commission meets tonight in the council chamber of the city hall at 7:30.

## FANS, FED UP ON WILD MOVIES, PLAN BACK TO NATURE MOVEMENT

Waukesha, Wis., Sept. 14.—People of this section are so "fed up" with wild movies, wild west, wild east, wild cities, wild country, wild parties, wild automobile rides—that they are backing a million dollar "back to nature" movement.

The Rotarians, it was announced here, have sent word to Will Hays, that they are willing to promote a project of the actual middle west, rivers, farms, hills, factories, cities, homes, people at work. They don't intend that it shall be "industrial" or "educational" movies, as those terms are applied generally. They intend to get an author, scenario writer, actors and everything, only they insist that the actors must act, not alone have lovely profiles or big soft eyes, or vanquish smiles.

Fred J. Strong, president of the Rotary club, sprung the idea as one coming from the "sticks" and one which might be called "hick," but to be backed by dollars, which don't seem out of fashion anywhere.

## CONVALESCENCE TO LAST LONG TIME

(By United Press)  
 Washington, Sept. 14.—Mrs. Harding will be a long time convalescing from the critical illness which nearly cost her life, but as far as present indications go, her physicians believe her convalescing will be uninterrupted from now on.  
 So satisfactorily has the president's wife gained, that it was decided no more official bulletins would be issued for the present. The last bulletin was given out in the White House last night.

## ATTEMPT TO KILL LEON TROTSKY

(By United Press)  
 Berlin, Sept. 14.—Unsuccessful attempts have been made to assassinate Leon Trotsky, Russian war minister, according to unconfirmed reports reaching here from Moscow today.

The report said a bomb was hurled at his motor car and several shots were fired, but no serious damage was done.

Peculiar Old English Law.

In England it is unlawful to play billiards in a public place on Sunday, Christmas day or Good Friday.

## AVAUNT STRAW HAT BY SEPTEMBER 15, IS NATIONAL EDICT

HAT SMASHING RIOTS OCCURRED  
IN NEW YORK. POLICE RE-  
SERVES CALLED OUT

FELT HATS WILL BE WORN WITH  
LESS OF THE CRUSH ON THE  
SIDE, IS REPORTED

(By United Press.)  
New York, Sept. 14.—World series prospects and other international issues took a back seat today while the male of the species in the United States went shopping to buy a hat.

Hat smashing riots occurred in New York, and police reserves were called out.

Millions of frayed and begrimed straws were worn down town throughout the nation for the last time. By September 15, however, every American must be out from under his straw.

The hatters of the nation were ready to meet the rush. Their shelves were stocked with styles to suit every masculine taste.

"It's going to be a trifle easier on the pocket book this year," the manager of the Bobb's shop on Fifth avenue declared.

"New shapes will follow English lines," the fashion dictator of one of Chicago's leading shops said. Hats will be worn with less of the crush on the side.

## CLOQUET TO WELCOME LEGION COMMANDER

Cloquet, Sept. 14.—Extensive preparations for the official welcome of Gerald V. Barron, state commander of the American Legion and former Cloquet post commander, are being made in connection with the banquet and meeting of the Eighth District Legion board to be held here Sept. 23.

Ed Erickson is chairman of the committee on arrangements, assisted by Clarence Keller, John D. Rogen-tine, Al Tonkin and William O. Cash. Anna Dickie Olesen, democratic candidate for United States senator, and Commander Barron will be the principal speakers at the banquet. Other speakers will be John Nolan, district commander; Levi Hall, national executive committeeman; Milton Mahlum, former commander Sixth District board; John Gannon, mayor of Hibbing, and Victor E. Essling, mayor of Eveleth.

Prominent labor men from several sections of the district will be invited to attend so that a better understanding between the legion and labor will be engendered. This is in line with the keynote speech made by Commander Barron at Minneapolis last week.

Arrangements for transportation of district delegates to the national convention and policies to be followed during the ensuing year will be planned.

## ROADHOUSE OWNER MURDERED IN CHICAGO

(By United Press.)  
Chicago, Sept. 14.—Felix Richbauer, owner of the "Dells," a famous suburban roadhouse near Chicago, was shot and killed today.

Mrs. May Pearl Paine, business associate of Richbauer and her sister, Maude Shirk, were held by police in

connection with the slaying. Police alleged the shooting followed a quarrel between the two in Mrs. Paine's apartment above the cafe after she had returned from a ride with a friend. Mrs. Shirk was alleged to have fired the shots.

## SHOPMEN ON 60 ROADS BACK TO WORK SOON

(Continued From Page One)

added that the negotiations with the roads would be ordered at once.

The terms of the settlement were as follows:  
"1.—In order to bring to an end the existing strike of employees upon the railroads and relieve the country from the adverse effects thereof and to expedite the movement of essential traffic, the following memorandum of agreement is upon the understanding, which the parties hereto accept, that the terms hereof shall be carried out by the officers of the companies and the representatives of the employers in a spirit of conciliation and sincere purpose to effect a general settlement of the matters in controversy referred to below. This paragraph does not apply to or include strikes in effect prior to July 1, 1922.

**Except Guilty Men**  
"2.—All men to return to work in positions of the class they originally held on June 30, 1922, and at the same point. As many of such men as possible are to be immediately put to work, at present rates of pay, and all such employees who have been on strike to be put to work or under pay not later than 30 days after the signing of this agreement, except such men as have been proven guilty of acts of violence which in the opinion of the commission, hereinafter provided for shall be sufficient cause for dismissal from service.

"3.—The relative standing as between themselves of men returning to work and men laid off, furloughed or on leave of absence, will be restored as of June 30, 1922, and they will be called back to work in that order.

**In Event of Dispute**  
"4.—If a dispute arises as to the relative standing of an employee or of any other controversy arising growing out of the strike that cannot be otherwise adjusted by the carrier and said employee, or the duly authorized representatives thereof, the matter shall be referred by the organizations parties to this agreement, the employees or the carriers in the interest of an employee who may be aggrieved, to a commission to be established or constituted as herein after provided, for final decision by a majority vote.

"5.—The commission referred to in paragraph four hereof, shall be composed of six representatives to be named by the chief officers of the organizations parties hereto and six railroad officers or representatives selected from and by the railroads agreeing hereto. This commission shall be constituted within 15 days from the signing of this agreement and shall have jurisdiction to decide all cases that may properly be referred to it on or before May 31, 1923, but not thereafter.

**Basis of Pact**  
"6.—Inasmuch as this agreement is reached for the purpose of composing on a spirit of compromise this controversy, all parties hereto agree that neither this settlement nor any decision of the commission above provided for, shall be used or cited in any controversy between these parties or between the railroads signing the same, or any other class or classes of their employees in any other controversy that may hereafter arise.

"7.—Both parties pledge themselves that no intimidation nor opposition shall be practiced or permitted against any of the employees who have remained at work or have taken service, or as against those who resume work, under this understanding.

"8.—All suits at law now pending as a result of the strike to be withdrawn and cancelled by both parties.

**Council's Statement**  
The executive council of the shopmen authorized the following statement in explanation of the agreement:

"The settlement speaks for itself. If the statesmanship shown by S.

Davies Warfield, president of the Seaboard Air Line had prevailed at the outset differences would have been composed in a week. Railroad employees are not breakers of the law but they are human and expect to be accorded the consideration which they believe they are entitled to receive as the inalienable right of an American citizen.

**Peace Preferred**  
"We sought settlement through the peaceful method of continued negotiations, not by resorting to violence or other unlawful acts. The injunction secured by the attorney general, coming as it did near the close of these important and far-reaching negotiations, would have, if secured 48 hours earlier, disrupted them.

"We have neither criticism to make nor excuses to offer. We accept the administration's proposal for settlement, and were not responsible for and misapplication of alleged understandings between the administration and the chairman of the Association of Railway Executives to which its defeat by that body was attributed. Neither were we responsible for the labor provisions of the transportation act.

"We conducted our proceeding under well-recognized labor policies of long standing. The public will not believe that the rank and file of labor condones acts of violence resulting in strife among train service employees and others. Through the constant effort of the officers of the organizations law and order was generally well maintained and such sporadic acts of lawlessness and violence as occurred were few in number when considering the number of men engaged in the strike and the pressure upon these men and hundreds of thousands of other persons directly or indirectly affected. We approached the railroads recognizing their difficulties as we expected them to appreciate ours.

**Method of Procedure**  
"The method of procedure adopted by the policy committee at the meeting is that no men on any railroad, even though included in the settle-

ment at this time, are to return to work until they have received the necessary directions from their respective system federations. The system federations on railroads now parties to the agreement will meet with the proper railroad officials and endeavor to secure this agreement from their railroads, in which event the men will return to work.

Necessary arrangements will be made to sustain and assist all men on all railroads who are forced to remain on strike because of the refusal of such roads to join the agreements made."

**Beginning of End**  
New York, Sept. 14.—The shop crafts strike settlement in Chicago marks the "beginning of the end of the strike," declared F. D. Underwood, president of the Erie railroad, in announcing that his road was not a party to the agreement.

"It looks like the beginning of the end," Mr. Underwood said. "The Erie is not a party to the Chicago agreement, however, and I cannot say what action we will take if the agreement is submitted to us until we hold a meeting of our board of directors."

**Return to Work at St. Paul**  
St. Paul, Sept. 14.—Approximately 4,000 striking railroad shop workers in the Twin Cities will return to work soon as a result of individual agreements with the roads started in Chicago.

**Keller's Impeachment Charges**  
Washington, Sept. 14.—The house judiciary committee today was called to meet Thursday to consider Representative Keller's impeachment charges against Attorney General Daugherty.

Keller will be summoned to appear before the committee, Volstead, chairman, announced.

## A New Cord Tire For the Thrifty Buyer

Here are the features that make this the best tire value in its price-class.

Full 10% oversize—4 inch tires actually 4.4 inches. Slightly flat tread—rubber properly placed to give traction, long-wear and easy-steering.

Tread rubber extends from bead to bead resisting rut-wear and curb-wear.

Carcass of 1½ to 1¾" long staple Arizona and Egyptian cotton. (Full ¼" longer than is ordinarily used in tires of this type—giving greater resiliency and tensile strength.)

Cured on air—pressure from within that minimizes the possibilities of hidden defects.

Cords are built up on the exclusive Goodyear "Group-Ply" principle which reduces the internal friction in the tire.

ONLY GOODYEAR CORDS HAVE ALL THESE FEATURES

And we have these new Goodyear CROSS-RIB CORDS for sale at prices usually asked for cord tires of unknown merit.

## A Popular-Priced Cord Tire Without a Rival

The new Goodyear Cross-Rib Tread Cord Tire is built with genuine high-grade long-staple cotton as a foundation.

It is liberally oversize—the 4½-inch tire, for example, measuring nearly 5 inches.

The deep, clean-cut, cog-like pattern of its tread affords excellent traction even in snow and mud, engaging the road like a cogwheel.

The scientific distribution of rubber in this tread—the wide center rib and the semi-flat contour—gives a thick, broad surface that is exceedingly slow to wear.

This new tire is a genuine Goodyear through and through—in design, in material, in construction.

It costs less to buy than the net price you are asked to pay for many "long discount" tires of unknown reputation and value.

Why be satisfied with less than this efficient tire can give—why take a chance on an unknown make?

Compare these prices with NET prices you are asked to pay for "long discount" tires

## THE COMING ELECTION

MINNESOTA has heard the first volleys from the guns fired by candidates in the election campaign of 1922. From now on there will be an ever-increasing barrage laid down by the big guns and the infantry will soon be under way for an advance into the territory of the enemy.

We hope that it will be a campaign in which the opposing forces will observe the rules of war and that those things which are barred by civilized society will not be introduced into the campaign by any of the forces in the field.

Much will be said by the speakers of the two opposing parties, who are seeking to win the seat in the senate and the office of governor of the state, about the records of those who are the present incumbents of these high offices, and citizens must exercise themselves to find out to what extent the attacks made upon the records of these men are either justified or without justification. The records of office-holders are open to the public and the voters have a right to examine these; before returning those, who may be measured by what they have done, to the positions they now hold. Personalities are ruled out of such contests by the will of the people, but records are admitted, and on these a candidate for re-election must either stand or fall.

Such being the case, a record is more or less of a disadvantage to a candidate. It is humanly impossible to please all the voters, whichever way a senator may vote on a given question, or a governor may advise on a specific issue. Therefore in examining a record, care should be taken to determine whether the officeholder has uniformly sought to advance the best interests of his constituents. There is a give and take in legislative halls, and a useful representative of the people enters into these halls as one who, while doing his best for his people back home, is nevertheless handicapped by existing conditions.

Right here is an important thing for voters to remember. Even though a perfect man were sent to a seat in the senate or to the governor's office, he would not radically change conditions by his presence. No matter how intelligent, how efficient, or how upright a legislator may be, he counts for one and only one in the legislative halls of his state or nation. And the man who goes there intent upon standing apart from the life of the capitol or senate as the case may be will not achieve much for his constituency or his country. The best man possible should be sent to represent the people, but the mere idealist or destructive critic is not always the best man. A constructive program, coupled with ability to get along with one's fellows, are essential qualifications of the statesman.

Therefore, in attempting to judge a man in such an office by his record, his uniform attitude to legislation should be the standard of judgment, and not those incidental divergences which are disappointing to many, but which can be readily explained by the officeholder as resulting from the political system which is not by any means faultless, and which he may be seeking to improve even while, for the best interests of his constituents, he plays the game as it is now played.

Candidates without records are immune from such attacks. These must be judged by their public utterances and the evidence they show of ability to hold the offices they seek. And no matter how idealistic a candidate may be, how critical of government as at present organized, how censorious of the apparent mistakes and weaknesses of present office-holders, he or she will count for one and only one in the legislatures they enter, and unless they are ready to take a place in the organized political life of their party, faulty as it may be and inviting compromises as it does, they will not get far in serving their people back home.

Above all else voters should feel it their duty to listen to a candidate's defense of his record, after listening to an attack upon that record, before they pronounce their judgment on a candidate for re-election.

## THE UNITED STATES AND EUROPE

AMERICA will give a warm welcome to Monsieur Clemenceau, "the old tiger," when he arrives in this country to tell the American people about the dangers that threaten his country and the sacrifices his people have made during the years of the war and since the signing of the armistice. This fervent champion of the rights of his people, fiery patriot and able statesman, will impress upon the American people the thought that Europe's problem was not solved when the councillors left the conference table at Versailles and departed for their distant homes.

A heavy burden is resting upon the French and British peoples at this time. Germany's attitude to her obligations to the nations she wronged is causing grave concern. She has issued paper money in such abundance, that there seems to be little hope of any speedy return to financial stability, which would admit of payments on her obligations to the victors in the World war who were in fact the victims of the war. France has spent a vast amount of money in restoring the devastated territories laid to waste by the German armies and her financial condition is a cause of serious concern.

The victory of the Turks, leading to a threat of a Mohammedan uprising for the purpose of winning Constantinople, has added a problem to the many problems already confronting the French and British peoples, and to have M. Clemenceau tell the American people just what the conditions are and what they would like us to do would be of great advantage in helping America to appreciate those conditions and needs.

Various reports prove that there is a serious lack of understanding of each other's aims and purposes, France and England feeling that we are failing to fulfill our obligations assumed during the war and cast off when Woodrow Wilson returned from French soil, and America thinking that if military expenses were reduced by the nations of Europe they would go a long way on the road to solving their own problems.

Rudyard Kipling does not represent either the English or the French in criticizing America's part in the war. What Europe does not quite understand is our refusal to help carry out the program which we helped to make in the palace at Versailles. And the message M. Clemenceau carries to the American people will help to bring about a better understanding of the attitudes of the peoples at both sides of the Atlantic.

## SHOPMEN'S SIDE OF CONTROVERSY AS GIVEN BY PUBLICITY COMMITTEE

Continued from page one

thereto are again put into service.

## Problems of Inspectors

"The service of our inspectors are general in character, and they are given such discretion as is designed to bring about a compliance with regulations by the carriers."

"In pursuance of the duty of inspectors to see that requirements are complied with, and that equipment is kept in safe condition, the inspectors deal with the varying situations and conditions in that manner which is deemed likely to accomplish the best practical results. The exercise of discretion and judgment is always involved. Obviously a locomotive may be defective and in need of repairs and yet be in a condition in which it is safe to operate without actual peril of life or limb. In many instances defects discovered and brought to the attention of carrier representatives are immediately repaired without requiring the locomotive. Under section 6 of the act notice is given of the more serious defects and the locomotives are required to be repaired."

## Only 4,085 Inspections in July

"While we are not in a position to make report regarding the condition of all locomotives and the extent to which the requirements as to inspection and repairs are not being complied with currently, there are indications, as to conditions generally, and certain deductions and conclusions may be drawn from the conditions disclosed by the work of our inspectors during the month of July. At 717 different points they made personal inspection of 4,085 locomotives. Of these 2,456 disclosed defects of the varied character mentioned above, and more or less serious; 169 were found to be in such condition that they were not 'safe to operate,' and notices were served upon the carriers under section 6 of the act, requiring them to be withdrawn from service. Of the others, 992 were found to have defects less serious in character but in need of prompt attention. In 1,295 cases defects, though not such as to give cause for immediate concern were such as, in accordance with sound practice, should have attention."

"It will be noticed that it is the 'use' of a locomotive not found to be in proper condition and safe to operate and not the condition itself which is a violation of the law. The withdrawal of locomotives for repairs, the restoration of locomotives to service, and the use of reserve or surplus locomotives are factors contributing uncertainty when considering the condition of locomotives in service to which the act applies."

"When considering the extent of our inspection, cognizance should be taken of the fact that the act limits the number of inspectors to 50 and that the amount directly appropriated to carry out its provisions for the current fiscal year is \$290,000. This sum may be spent in monthly allotments of \$24,166.86, as provided in the anti-deficiency act of February 26, 1906. The amount expended during the month of July, 1922, in carrying out the requirements of the act was \$24,025.63, or within \$141.23 of the fixed monthly pro rata of \$24,166.86. Had the instructions of the director of the bureau of the budget to set up a general reserve fund of \$20,000 been in effect during the month of July we would have incurred a deficit of \$1,525.63."

## PENNSY NEGLIGENCE IS BLAMED FOR HOLOCAUST (Labor)

Seven strikebreakers of the Pennsylvania railroad lost their lives and 10 others injured when a large warehouse in which they were housed burned in Pittsburgh. The fire was reported as being of incendiary origin and striking shopmen were held responsible for it. Investigation disclosed however that the fire followed an explosion of carbide stored in the destroyed structure, the result of carelessness and not of design.

Later on the Pennsylvania officials confessed that the building was a "tinny box." If the law were enforced this would make the responsible officials subject to criminal prosecution.

## GRABLE SHATTERED BY BOARD'S BROKEN PROMISE

Broken-hearted because of the refusal of the United States Railroad Labor Board to give a living wage to members of his organization, E. F. Grable, grand president of the United Brotherhood of Maintenance of Way Employees, is seriously ill at a Chicago hotel.

His collapse followed the recent ruling of the Labor Board that the question of a living wage could have no consideration at their hands. PUBLICITY COMMITTEE, Federated Shop Crafts

## COMPROMISE SOUGHT IN THE TARIFF FIGHT

(By United Press)

Washington, Sept. 14.—Folled sharply by the unexpected action of the house in ordering the tariff bill returned to conference, republican conferees met again today to thresh out an acceptable compromise agreement.

That the dye embargo would be stricken out, seemed certain, not only because of the expressed desire of the house, but because of the potential antagonism which developed almost overnight in the senate.

A group of republicans in the senate headed by Senator Moses, New Hampshire, has informed Chairman McCumber and other conferees that there is enough promised support in the senate to defeat any provisions which seeks to limit the importation of dyes.

## N. D. State Bar Association

Minot, N. D., Sept. 14.—The state bar association may take some action on the indorsement of candidates to the state supreme court at their annual meeting here today and Friday.

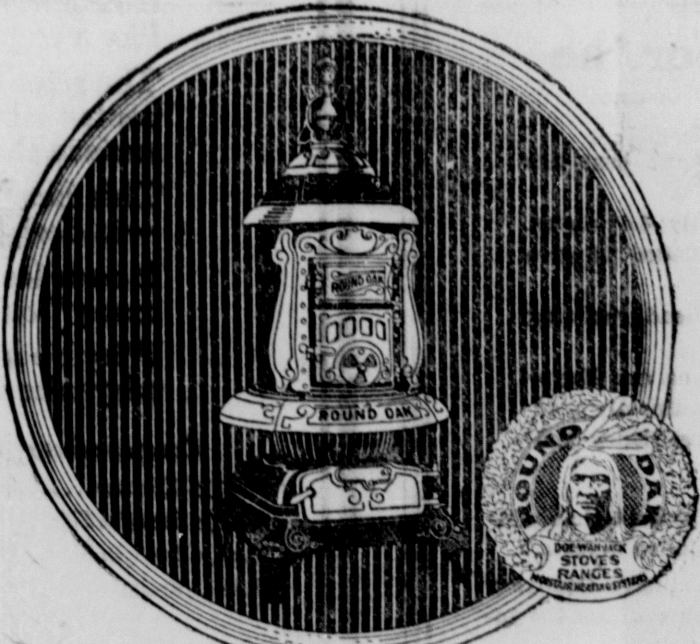

Other questions to come up will be consideration of a proposed amendment.

## Rheumatism

A Remarkable Home Treatment Given by One Who Had It

In the year of 1892 I was attacked by Muscular and sub-acute Rheumatism. I suffered as only those who are thus afflicted know, for over three years. I tried remedy after remedy, but such relief as I obtained was only temporary. Finally, I found a treatment that cured me completely, and such a pitiful condition has never returned. I have given it to a number who were terribly afflicted, even bedridden, some of them seventy to eighty years old, and the results were the same as in my own case. I want every sufferer from any form of muscular and sub-acute (swelling at the joints) Rheumatism, to try the great value of my improved "Home Treatment" for its remarkable effectiveness. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-sought-for means of getting rid of such forms of rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when relief is thus offered you free? Don't delay. Write today.

Mark H. Jackson, 357-J Durston Bldg., Syracuse, N. Y.  
Mr. Jackson is responsible. Above statement true.

## It Cokes Coal—Forms No Clunkers

This stove burns any fuel—coals, wood, slack, coke, soft or hard coal. It cokes coal, and the room, instead of the chimney, gets the heat. The perfected hot blast converts even the black carbon in the smoke into warmth.

The patented cone-center grate prevents clunkers. Boiler-iron body, seamless ash pit, doors ground to fit and heavy over-size parts indicate the quality that the Round Oak folks build into this heater.

## ROUND OAK SQUARE BASE HEATER

We urgently recommend that you see this stove at once. A shortage in good stoves is at hand.

BRAINERD HARDWARE CO.

ment to the federal constitution which would prohibit courts from holding laws unconstitutional. There will also be discussion on revising of supreme court rules and the convention

may go on record as asking for a percentage of the license fee.

Speakers will include Chief Justice Birdzell, of the state supreme court; Hon. Tracy R. Bangs, state president

of the association; Gov. R. A. Nestos; Judge A. G. Burr, and J. E. Leighton, of Minot.

The business session will be held Friday.

Studebaker

BIG-SIX  
TOURING

\$1650

THE dependability of the Studebaker Big-Six is due to correct design, the use of the best materials money can buy and the highest standard of workmanship.

Studebaker stands in absolute control of the quality of the materials at all times, because Studebaker makes in its own plants such vital parts as motors, transmissions, axles, frames, bodies, tops, castings, forgings, stampings, etc. The parts-makers' profits on such items are, therefore, eliminated and only one manufacturing profit is included in Studebaker prices.

The Big-Six is distinctive in appearance with its handsome body and many refinements. It offers genuine comfort through its long semi-elliptic springs,

restful 9-inch seat cushions, fine upholstery and shock absorbers. It is economical to buy and own, and enjoys a high resale value.

The new price of \$1650 for the Big-Six Touring car is the lowest at which it has ever sold. Yet the quality is actually better than ever and this means a value that is duplicated nowhere else in the field of fine cars. You won't find greater satisfaction at any price.

The Big-Six Touring car provides ample room for seven. When not in use the auxiliary seats fold neatly out of sight—always ready for instant use when you need them.

The name Studebaker is our greatest asset and your best protection.

Cord Tires Standard Equipment

## Ransford Garage

510 Front Street Phone 804 Brainerd, Minn.

THIS IS A STUDEBAKER YEAR

## Making 20 Years of Racing Serve Car Owners Today

IN the early days of automobile contests, Barney Oldfield—out to win every race—studied tires. His consistent success led other drivers to ask for tires constructed to his specifications.

Twenty years of road and track victories—with a steady and increasing demand for tires as he built them—convinced Barney Oldfield that these speed tests pointed the way to a better tire for everyday use.

The enthusiastic reception of Oldfield Cords by the public proved he was right. Scores of the most prominent dealers in the country—and many thousands of car owners, experienced in the use of tires—bear witness by their decided preference that Oldfield is doing a bigger and better job of tire making.

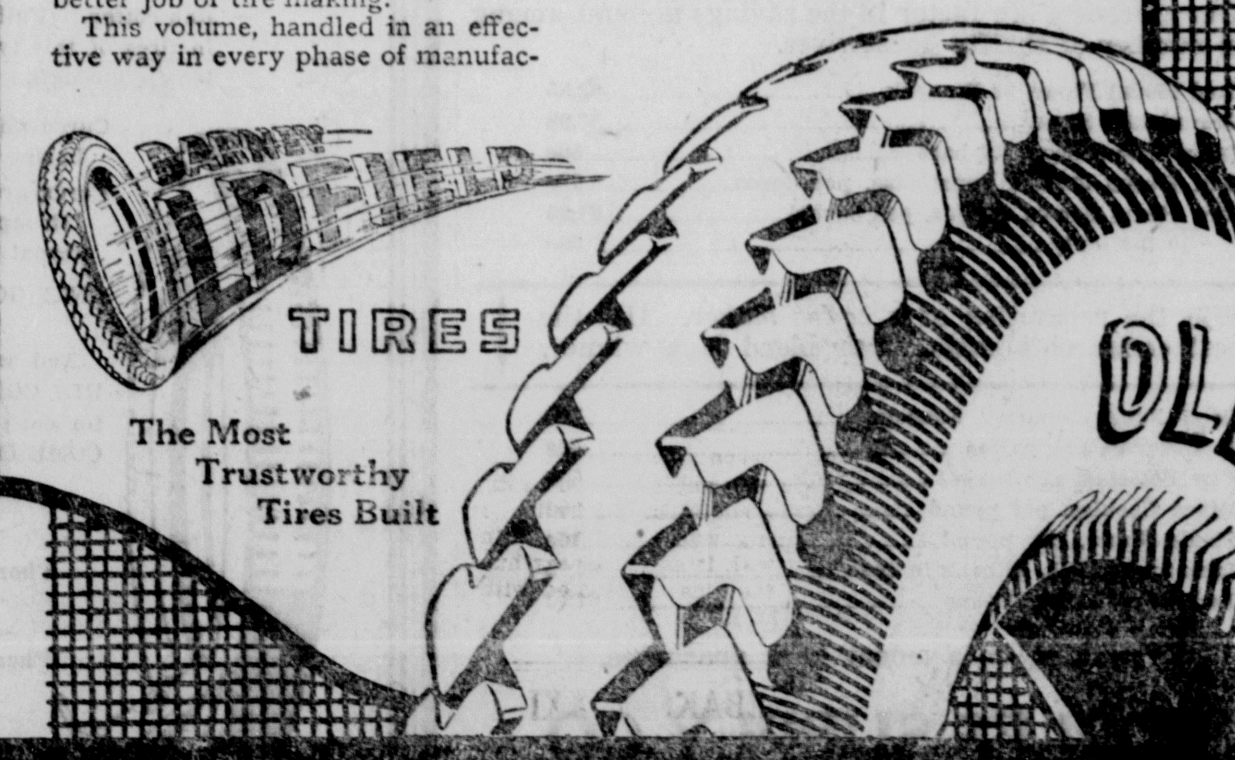

This volume, handled in an effective way in every phase of manufac-

ture and distribution, has resulted in price quotations far below what you'd expect on tires known to be better built and more enduring.

Practically every important race event for three years has been won on Oldfields. The Wichita Test Run in which an entire set of Oldfield Cords covered 34,525 miles on rough roads proves the mettle of the Most Trustworthy Tires Built in everyday driving.

The Master Driver and Tire Builder has given the public a new standard of tire wear and tire cost—a true economy that every car owner should know about.

Your Oldfield dealer has these facts—talk to him.

IN the early days of automobile contests, Barney Oldfield—out to win every race—studied tires. His consistent success led other drivers to ask for tires constructed to his specifications.

Twenty years of road and track victories—with a steady and increasing demand for tires as he built them—convinced Barney Oldfield that these speed tests pointed the way to a better tire for everyday use.

The enthusiastic reception of Oldfield Cords by the public proved he was right. Scores of the most prominent dealers in the country—and many thousands of car owners, experienced in the use of tires—bear witness by their decided preference that Oldfield is doing a bigger and better job of tire making.

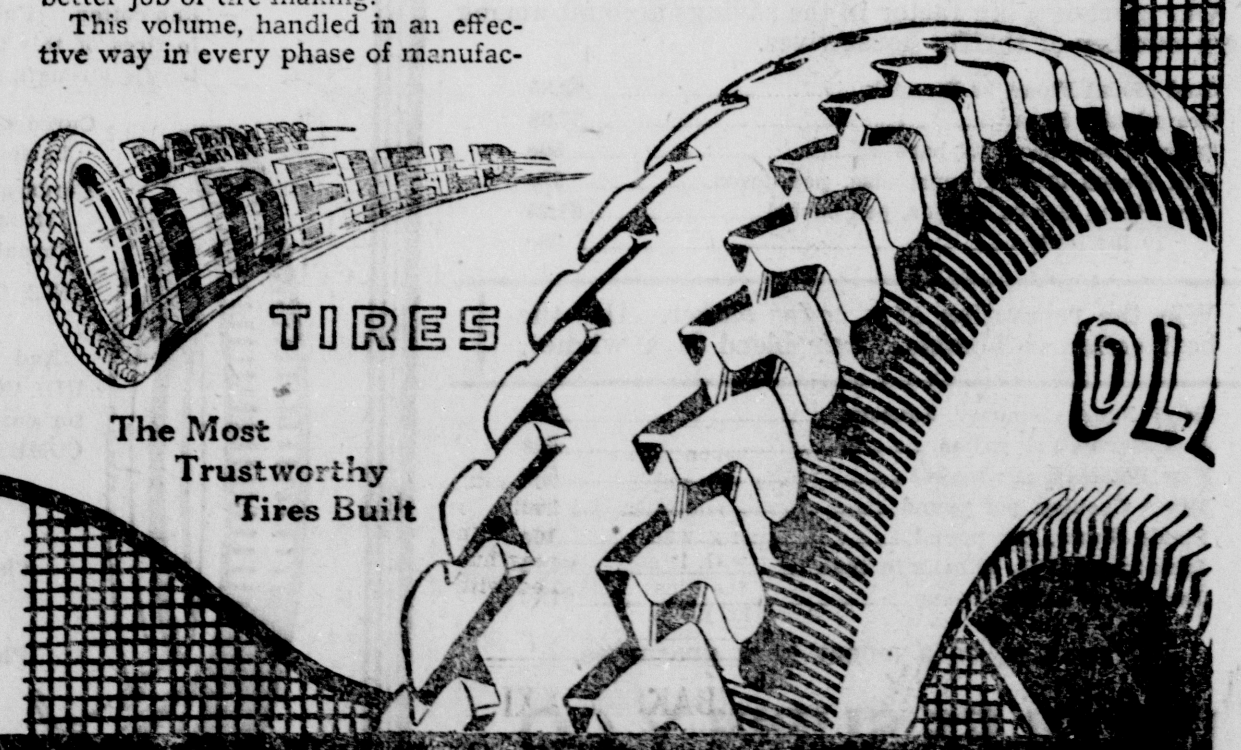

This volume, handled in an effective way in every phase of manufac-

ture and distribution, has resulted in price quotations far below what you'd expect on tires known to be better built and more enduring.

Practically every important race event for three years has been won on Oldfields. The Wichita Test Run in which an entire set of Oldfield Cords covered 34,525 miles on rough roads proves the mettle of the Most Trustworthy Tires Built in everyday driving.

The Master Driver and Tire Builder has given the public a new standard of tire wear and tire cost—a true economy that every car owner should know about.

Your Oldfield dealer has these facts—talk to him.

LOUIS HOSTAGER, Brainerd, Minn.

## IMPORTANCE OF THE TOURISTS TO TOWN

Chamber of Commerce takes Action  
to Increase Such Business in  
This Section

**TO IMPROVE TOURIST PARK**  
Supt. Cobb Spoke of School, County  
Agent E. G. Roth of Alfalfa  
Experiments

The Chamber of Commerce meeting Wednesday evening was marked with a great deal of interest. President W. E. Haydon presided and a number of important matters were discussed and disposed of.

The advisory board, which met on Tuesday afternoon submitted its recommendations, which were accepted by the Chamber. The most important of these were the plans proposed for the extension of the tourist business in this section.

It is conceded that this business is becoming more important every year, with the increasing number of tourists who travel from far and near to take advantage of our summer playgrounds.

This year, with the strikes crippling business more or less, the great volume of tourist trade is more noticeable, and has been appreciated more by the business men than ever before.

It is planned now to take great strides in further increasing the tourist travel through Brainerd, by putting on an intensive campaign to bring them this way, by improving our local camping grounds and doing everything possible to make the visitor's stay in this city pleasant, so that he will come again, and influence others to follow. Other towns in this territory have made and are making elaborate plans in this direction, and it is up to Brainerd to compete with them or lose a large share of this valuable trade that should be hers.

A report from the special committee which presented the A. A. White gift to the city council reported that the matter had been referred to the city property committee, they to report at the next regular meeting of the council.

Superintendent of Schools W. C. Cobb explained in detail the school tax levy, and the basis upon which it will be determined from an estimate of the coming year's expenses.

County Agent E. G. Roth spoke at length on the experiments being conducted in connection with alfalfa growing in this county. He stated that there are twelve experimental fields of this product in Crow Wing county, beside the official experimental field at Crow Wing. The alfalfa is planted on the poorest land obtainable for these experiments and well fertilized with marl. Mr. Roth stated that these fields were in exceptionally fine condition, showing the possibilities of raising this grass for use in connection with dairying and stock raising, two of the most profitable kinds of farming for this territory. Cheap lands can thus be utilized and made to yield excellent returns from small investment.

Interesting talks on advertising this section of Minnesota were made by Rev. E. A. Cooke, Hilding Swanson, O. J. Bouma and others. The application for membership of Ray F. Roller was voted upon, and Mr. Roller unanimously elected into the Chamber.

### Ladies Guild

The Ladies Guild of the Episcopal church will hold a cake and cookie sale Saturday, September 16 at the Singer Sewing Machine store, 724 Laurel street, starting at 10:30 in the morning.

### For Mrs. Bacon

Mrs. Charles Peterson, 901 Fir street, is entertaining a number of friends and neighbors this afternoon in honor of Mrs. Margaret Bacon, of Pilager.

### Missionary Society

The Missionary society of the First Congregational church will meet Friday afternoon at 3 o'clock, at the home of Mrs. E. P. Slipp, 392 Juniper street.

The subject for study will be "India's Heritage", Chapter 1, from "Building With India". A large attendance is desired at this meeting.

### Dorcas Society

The Dorcas society of the Swedish Bethany church will meet Friday evening at the home of Mr. and Mrs. Oscar Swanson, 410 3rd avenue, N. E. A large attendance is desired.

EARLY to bed, early to rise, stick to your business and advertise.

## FRANK T. BLACKBURN IN ALASKAN REGION

Brainerd Man Tours North Country  
From Seward at Tidewater to  
Interior at Fairbanks

**GOVERNMENT OWNED RAILWAY**  
Built on Frozen Strata Which  
Thaws and Shifts Rails in the  
Summer Time

Frank T. Blackburn has returned from an extensive trip covering nearly three months, which took him into the interior of Alaska and has made him quite a booster for the "North Country".

Mr. Blackburn left Brainerd on June 25th going directly to Winnipeg and then to Vancouver over the Canadian National Railway.

From Vancouver he went to Seattle where he took passage on the steamship "Northwestern" with a party of sightseers bound for Alaska. Among the number in this party were the Misses Ella and Clara Simons, former Brainerd girls, who are now teachers in the St. Paul schools. At one time, their father worked in the Brainerd shops, and their uncle was pastor in one of the Lutheran churches here.

The party landed at Seward, Alaska, on July 15th, after a seven day voyage covering some eighteen hundred miles. From Seward the trip to Fairbanks, 467 miles, was made on the government railways, the last seventy miles being a narrow gauge road.

This railroad, as its name implies, is owned by the government. It follows the valleys into the interior of the country, and much trouble is experienced in keeping the roadbed in shape for travel. The ground in that locality only thaws out to a depth of about three feet, and this top layer is continually slipping and sliding over the frozen strata beneath, thus warping the railroad tracks out of shape and causing some rather intricate engineering problems. The passenger trains make three trips per week over this road from Seward to Fairbanks.

Fairbanks gained a great deal of notoriety in the days of the gold rush, being a city of about ten thousand population at that time. It has dwindled down, until now there are not more than five or six hundred people living there. Several small gold mines and a number of trapping outfits keep the town alive.

Mr. Blackburn stayed in Alaska two weeks, returning to Seattle the last of July, where he visited for a month before coming back to Brainerd. He took a large number of kodak pictures of glaciers, snow-capped mountains, etc., showing the beauties of the Alaskan territory, and brought home a number of trophies made by the northern Indians and Eskimos.

### Colored Veteran Becomes Linotype Operator

Byron S. Riffe, colored, of St. Paul, served in the U. S. Army from June 1915 to March 1919, when he was discharged with Metatarsalgia. Previous to his military service he had been a bell boy and printer's apprentice, earning low wages.

The U. S. Veterans' Bureau, District No. 10, gave him vocational training in linotype operating because of his interest in the printer's trade. This was a line of work which he could follow in spite of his disability.

Riffe, who was a sergeant in the service, is married and has two children.

He was rehabilitated August 1 and is employed as a linotype operator at a salary of \$40 week, with the Northland Press Company of St. Paul.

### Hennepin County Fair

Hopkins, Minn., Sept. 14.—Coming close on the heels of the Minnesota state fair this year's Hennepin county fair promised to be a record breaker today.

All school children will be admitted free as part of a new educational scheme being tried out.

Several band concerts and horse racing are the principal entertainment features.

### New Weapon Against Mice.

A way to kill mice (without cats) has been discovered in Australia. A powder recently was tested by sprinkling wheat with it and fastening hungry mice in the bins; mice died without eating the grain.

## LIONS WELCOME NEW OFFICERS

Dr. W. A. Erickson, President of Association, Makes His Inaugural Address

**MEMBERS PLEDGE SUPPORT**  
Club on Thursday Will Meet Senate Committee and Take Them to Marl Fields

The Lions club roared a welcome to their new officers Wednesday evening at the regular weekly luncheon, which was one of the liveliest affairs in the club's history.

Dr. W. A. Erickson, the new president, made his inaugural address, in which he outlined the plans of the club for the coming season. The members pledged their support to his program, thus opening what promises to be a record-breaking year of accomplishments for this organization. Lion Tamer Bouma and Tail Twister Krekelberg also stated their plans for the work of these offices, which contribute a large share toward the success of the club meetings.

Balloting on several officers, which had been laid over from the last meeting was taken up. Ben S. Armstrong was elected first vice president, R. D. Stitzel, second vice president, Walter Murphy and Harry Butler members of the board of directors for one year.

R. S. Wilcox spoke on the benefits derived from the use of marl as a fertilizer on several fields of alfalfa in Crow Wing township, and asked that the club show its interest in matters of this nature by making a trip to these fields in a body on next Wednesday afternoon, the trip to be timed so as to just precede the regular meeting. His suggestion was placed in the form of a motion which carried unanimously.

County Engineer Walter M. Murphy called the attention of the club to the fact that state representatives are expected to visit Brainerd on Thursday for the purpose of making an investigation of the marl deposits of this county, with a view of locating a state cement plant here, and asked that the club be at the train to meet these gentlemen and escort them on their tour of investigation which will end with a banquet at Brezy Point. This suggestion was also concurred in by the club. The new board of directors held a business meeting immediately following the luncheon to outline the policies of club for the coming season.

### Obituary

John H. Peterson was born in Denmark October 10th, 1857. He came to America at the age of 11 years, and in 1881 was married to Miss Amelia Thomsen.

The family lived in Belmond, Iowa, until 1904 when they moved to Brainerd, settling on a farm, where he lived until his death, September 4th.

Mr. Peterson was very active in the promotion of better farming, showing his faith in this territory by investing in two large farms, near St. Mathias.

He leaves to mourn his loss, his wife, three sons, Albert, Walter and Elmer, living at home and one daughter, Mrs. C. H. Quick, of Fort Ripley. There are several grandchildren.

### Card of Thanks

We wish to thank our friends and neighbors, also the Modern Woodman Lodge for their kindness and sympathy shown and for the beautiful floral offerings.

### IN MUNICIPAL COURT

Board Bill Aired in Court, Automobile Collision Finds Only Plaintiff Present

In municipal court this morning the case of John Britton against William Chambers was called, but a continuance was granted to allow the parties concerned to get together and settle outside of court, if possible.

William Chambers was at the head of the Chambers Manufacturing Co., which started a small plant in Barrows several years ago. He boarded at the home of John Britton during his stay in Barrows, and Britton complains that he left with the intention of defrauding his landlord out of a board bill of \$190.

Sheriff Theorin picked Chambers up in the cities on Wednesday, bringing him back to face the above charges.

The case of Joseph Flannagan against Joe Urecht was also up for trial this morning. It was shown that Brecht, while in an intoxicated condition, collided with the plaintiff's car, driven by Miss Genevieve Flannagan, near the two mile corner on Oak street, inflicting damages to the Flannagan car which amounted to over \$100.

The defendant failed to appear in court and the judge's findings were in favor of the plaintiff.

### WOODROW

An auction sale was held at the Pine Ridge Farm Thursday.

Misses Minnie, Emma and Inga Nelson, Lillian and Dorthel Norgard called on Miss Evelyn Thellius Wednesday evening at M. Olson's.

Edward Norgard visited in Woodrow Sunday.

Mr. and Mrs. C. A. Norgard were Brainerd visitors Sunday.

Mrs. Theodore Sather visited Mrs. Ole Norgard Sunday afternoon.

There was a light frost Sunday night, but no severe damage was done.

Charles Petri is now working on the section.

Irene Hansen was on the sick list last week, which kept her from school Thursday and Friday.

Mr. and Mrs. John Nelson were in town Tuesday.

G. F. Edquist and family visited at Geo. Wallets Saturday evening.

### Advertising Congress

Minot, N. D., Sept. 14.—Nationally famous advertising experts will give the Associated Advertising clubs of the Dakotas, Minnesota and Montana the benefit of their wide and successful experiences at the two days' district convention here today and tomorrow.

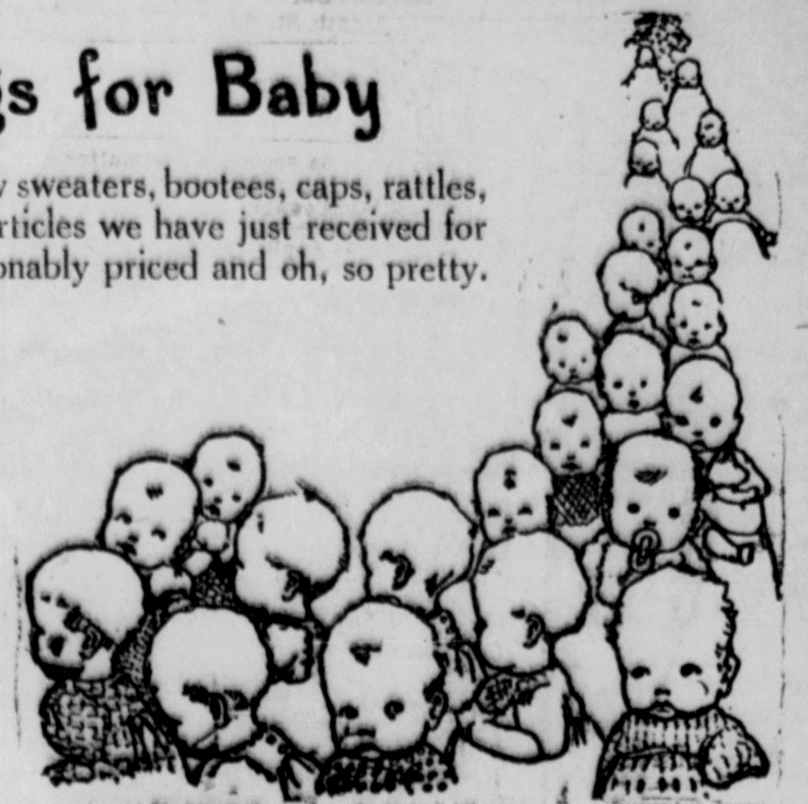

Among the speakers are: Gov. R. A. Nestos, Carl Hunt, New York, general manager of the Associated Advertising clubs of America; F. P. Mann, Devils Lake; Frederick Kammann Jr., Minneapolis, Rutherford Finch, Minneapolis; Judge Chas. A. Orblson, Indianapolis; Louis Burgess, president of the Minneapolis Advertising club; Earl Pearson, New York, editor of Associated Advertising; Don Leslie, St. Paul.

V. E. Ziennerson, president of the Minot club, will preside.

W. E. Holbein is president of the North Dakota association and C. G. Ferguson, Minneapolis, is president of the eighth district.

## New Things for Baby

You'll be delighted with the new sweaters, booties, caps, rattles, silk carriage robes and other articles we have just received for baby. They are all most reasonably priced and oh, so pretty.

## PLANS FOR EVERY BUILDING NEED

This is good building weather, and it won't last so many months. There is every reason why the prospective builder should take advantage not only of the good weather but of favorable conditions in the building industry. Supplies and labor are plentiful and can be purchased at as low a figure as in years to come.

Right now is the time to go over the plans we have on file here and select a home suited to your needs. You will find something, we are sure, that will be what you want and what you can afford to erect.

No matter what the building project may be, right now is the opportune time to proceed. Be it house, barn, granary, hog house, corn crib or shed we have plans here drawn that suggest the latest conveniences in the most approved styles of building.

COME IN SOON AND LET'S GO OVER THE  
MATTER OF BUILDING AT THIS TIME

## STANDARD LUMBER COMPANY

111 Laurel Street L. F. HOUGH, Manager Call 112

A new range, a clean quick acting helper in the kitchen, a stove that is always in shape, one that you can depend on to deliver properly baked food, one of our improved ranges makes your hours in the kitchen shorter and lighter. We don't carry the cheapest line of stoves and ranges in town but we do guarantee to give you more for your money.

We want you to see the new ACORN and LAUREL we have on display. We're taking orders for them now, selling 'em as fast as we get 'em.

## PLANS FOR EVERY BUILDING NEED

This is good building weather, and it won't last so many months. There is every reason why the prospective builder should take advantage not only of the good weather but of favorable conditions in the building industry. Supplies and labor are plentiful and can be purchased at as low a figure as in years to come.

Right now is the time to go over the plans we have on file here and select a home suited to your needs. You will find something, we are sure, that will be what you want and what you can afford to erect.

No matter what the building project may be, right now is the opportune time to proceed. Be it house, barn, granary, hog house, corn crib or shed we have plans here drawn that suggest the latest conveniences in the most approved styles of building.

COME IN SOON AND LET'S GO OVER THE  
MATTER OF BUILDING AT THIS TIME

**STANDARD LUMBER COMPANY**

111 Laurel Street L. F. HOUGH, Manager Call 112

A new range, a clean quick acting helper in the kitchen, a stove that is always in shape, one that you can depend on to deliver properly baked food, one of our improved ranges makes your hours in the kitchen shorter and lighter. We don't carry the cheapest line of stoves and ranges in town but we do guarantee to give you more for your money.

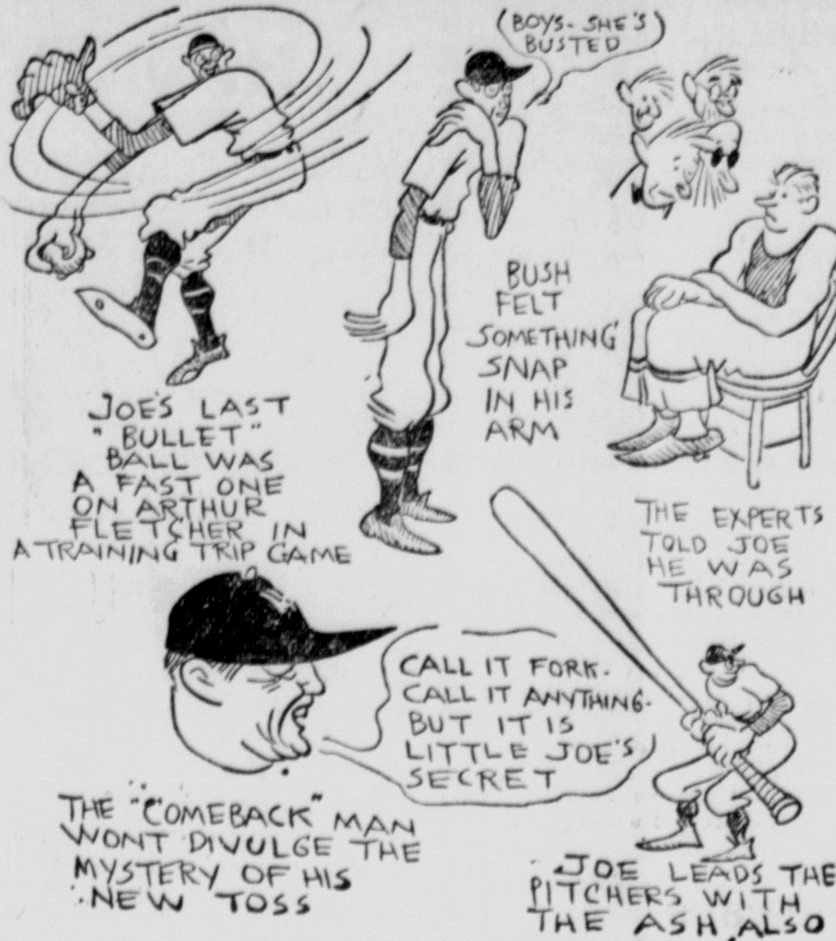

We want you to see the new ACORN and LAUREL we have on display. We're taking orders for them now, selling 'em as fast as we get 'em.

**ALDERMAN-MAGHAN CO.**

Sporting Goods Headquarters

# "BULLET JOE" BUSH MAKES GREAT COMEBACK

he is coming back to America next summer hunting a bout with Harry Greb, Gene Tunney or Tom Gibbons.

France may have a real invading party on United States soil in 1923. Eugene Criqui, the featherweight champion, and Mile. Suzanne Lenglen are planning to come over and a team is to be entered in the international track and field meet at Los Angeles.

Pat Moran and Garry Herrmann weren't dumb when they let Heinie Groh go to the New York Giants for a pile of coin. The Reds did lose a fine third baseman, but they got a better one in Babe Pinelli, who is just about the best third baseman in the National League. Groh is about through and Pinelli is just starting.

The Reds with a fast, hustling young club, have a fine chance to cop the 1923 pennant. With better pitching in the early season when the club dropped twelve out of fifteen games, Moran might have won this year. Eddie Roush, no doubt, will be traded or sold this winter and Moran should be able to get most any kind of material he desires in the deal.

## DISPATCH IS UNDER SOME OBLIGATIONS

The Brainerd Dispatch acknowledges a number of courtesies in publishing the picture and story of Joe Bullet Bush. The Chicago Daily Journal and Artist Igoe were kind enough to let Franz R. N. Anderson, of 422 St. James Place, Chicago, former Brainerd photographer and former commander of the American Legion Post at Brainerd, have the mat from which the above picture was made.

Quick work was shown on the part of Mr. Anderson, who secured the mat shortly after the Chicago Journal sporting extra appeared Monday afternoon and who mailed it to the Brainerd Dispatch.

The Yank-White Sox series started Wednesday.

## AMUSEMENTS

### Last Day of Gilbert Picture Run Here

The William Fox picture "The Yellow Stain," starring John Gilbert, which has been entertaining appreciative audiences at the Lyceum theatre, closes its engagement tonight. The story is a tense one of love, duty and honor, and John Gilbert and his leading woman, Claire Anderson, do very excellent work.

### New Fox Play With William Farnum

Seldom has a picture come to a local theatre with so much favorable advance comment to attest its merit as in the case of "A Stage Romance," William Farnum's new Fox photoplay, in which the beloved star appears as

Edmund Kean, probably the greatest actor of all time, whose genius and near-madness are among the traditions of the stage.

The picture, adapted to the screen by Paul H. Sloane from a play by the elder Dumas, will open tomorrow at the Lyceum theatre. It is said to

they were released from their cells. The guards were badly beaten. The insane patients then tried to escape from the building, but the alarm had been sounded. They then lined up the three guards in front of them and started a battle that lasted nearly an hour.

National guardsmen were called by the sheriff, and they kept up a steady fire until the maniacs' ammunition was exhausted. One of the patients was seriously wounded with a charge of buck shot.

## DRY NAVY CATCHES BRITISH RUM BOAT

### THE ARMED VESSEL "TAYLOR" BRINGS INTO PORT BRITISH SCHOONER "GARDNER"

### CUSTOM OFFICIALS SAID THE SCHOONER CARRIED 96 CASES OF LIQUOR

(By United Press)  
New York, Sept. 14—The armed vessel Taylor of the government dry navy brought into port today the two-masted British fishing schooner M. M. Gardner and put up under heavy guard of federal officers.

Custom officials declared they captured the Gardner well within the three-mile limit, and found 96 cases of liquor aboard her.

## 5 WITNESSES TESTIFY SEEING BLOODY FLESH

(By United Press)  
Superior, Wis., Sept. 14—Five witnesses to the fire which destroyed the cottage of Edward J. Sallstad on Lake Nebagamon, today testified in court here that they saw a piece of bloody flesh pulled from the fire.

The testimony was presented to dispute claims of insurance companies that Sallstad placed a corpse from the cemetery in the cottage and burned it to cover his disappearance.

Sallstad's wife, Mrs. Leona Sallstad Richardson, is suing several companies for \$80,000 insurance by her former husband.

Insurance companies have refused payment, claiming Sallstad has been seen since the fire.

Mrs. Sallstad has married again. Ray Anderson, a carpenter, helped identify a watch, keys and coins previously identified as having belonged to Sallstad as those taken from the ruins of the cottage after the fire.

C. H. Bunting, pathologist of the University of Wisconsin, this afternoon was to describe to the jury two reconstructed skeletons, one of a woman, and one of a man. He will contend for Mrs. Sallstad that the bones taken from the cottage were those of her husband, attempting to establish his identity by the reconstructed skeleton. The case may be concluded Saturday.

(By United Press.)  
St. Peter, Sept. 14—One maniac was shot and three guards beaten and more than one hundred persons endangered in a riot at the state insane hospital here early today. Fifty national guardsmen finally quelled the disturbance.

Two maniacs, to whom guns and ammunition had been smuggled over the walls, attacked three guards as

## I First Compounded This Newer Form of Iron For My Own Neighbors

Their Praise of This Remarkable Remedy Has Spread So Rapidly That Now Over 4,000,000 People Use It Annually

Years ago I began to wonder at the great number of my own friends and neighbors who were always ailing, complaining and doctoring, without ever seeming to get any better. Both working men and their wives were frequently all tired out in the evening, and a great many were weak, nervous and run-down. One had pains in the back and thought he had kidney trouble. Another had pains around heart, palpitations and dizziness, and was sure he was suffering from heart disease. Still others had severe headaches, floating spots before the eyes, tender spots along the spine and a great variety of alarming symptoms.

For years I made a special study of this condition, consulting a great number of physicians and chemists. An immense number of investigations by physicians all over the country showed that three people out of every four you meet lack 100% iron in their blood. Lack of iron in the blood is the greatest of all debilitating weaknesses. It is the iron in your blood that enables you to get the nourishment out of your food. Without iron, nothing you eat does you any good. Your heart, lungs and kidneys and all your vital organs get their nourishment from the blood stream, and when the blood lacks iron and is thin, pale and watery, you may

suffer from the symptoms of a great number of diseases when the real and true cause of all your trouble is a lack of iron in the blood. In the old days people often took metallic iron, which some physicians claim is not absorbed at all. In compounding this newer form of iron which I call Nuxated Iron, I employed a special form of iron, which is like the iron in your blood and like the iron in spinach, lentils and apples. Unlike the older forms of iron, it will not injure the teeth nor disturb the stomach, and it is ready for almost immediate absorption and assimilation by the blood. It is the people whose blood is rich in iron who possess great strength, force and energy. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two 5-grain tablets of Nuxated Iron three times a day after meals for two weeks, then test your strength again and see how much you have gained. An astonishing number of nervous, run-down people who were ailing all the while, have greatly improved their health and increased their strength, energy and endurance simply by taking this newer form of iron. For sale by all druggists.

Including Johnson's Pharmacy.

209 So. 6th St.

plus a regular income of \$1,200 a month.

Bill, senior, yielded either to a smouldering spark of melodrama in his breast or some other impulse last night, and called upon his son at the home of Mrs. Hart's mother.

"Reconciliation is impossible" was Hart's comment after the rather cool meeting with his wife and mother-in-law. "But the boy—he is a real man. He is as strong as I am".

### Facts About Bees.

A Belgian scientist found that a bee, weight for weight, is thirty times as strong as a horse. The female bee has a set of walloost pockets. When she is engaged in making the cells of the honeycomb, tiny flakes of wax are secreted in these little pouches, from which they are removed by her with her jaws, as needed.

## WILLS AVOIDS REAL RING TEST

By HENRY L. FARRELL  
United Press Sports Editor

New York, Sept. 14—Knocking over frightened-stiff, rookie setups never will give the public a real line on the ability of Harry Wills, the colored challenger of Jack Dempsey.

Wills complains that he can't get any first class opponents, but he has never made any public appeal for a bout with Bill Brennan or Billy Miske. Brennan, more than any heavyweight contender, could bring out what really is in Wills. The Chicago heavyweight is too game to be bothered by the reputation of the big stevedore and he can take a punch.

Wills and Brennan would be a good card and Brennan is said to be willing.

Use of ordinary judgment and common "horse sense" by umpires would do a lot to down the complaints about bad officiating in the major leagues that have come to the attention of Commissioner Landis.

Two large out-of-town delegations and a crowd of 2,000 orphans attended one of the recent Yankee-Washington games, just to see Babe Ruth perform. In the first inning Ruth hit a homer, but when he came up in the third inning he objected to a called third strike. It was a mild complaint. He did not resort to any rough tactics, but Umpire Connelly ordered him out of the game.

Apparently the umpires have been instructed not to let Ruth get away with a thing, but that was going too far, because Connolly has been none too quick on the trigger before. On one occasion during a Yankee-Brown series he let the Browns argue about a decision for twenty minutes.

Despite reports that Georges Carpentier is going to leave the ring and do his future stuff in the movies, friends of the Frenchman here insist that

# "BULLET JOE" BUSH MAKES GREAT COMEBACK

he is coming back to America next summer hunting a bout with Harry Greb, Gene Tunney or Tom Gibbons.

France may have a real invading party on United States soil in 1923. Eugene Criqui, the featherweight champion, and Mile. Suzanne Lenglen are planning to come over and a team is to be entered in the international track and field meet at Los Angeles.
